

## JOAN ARVEDSON, PHD, CCC-SLP, BCS-S, ASHA FELLOW

Joan Arvedson is the Program Coordinator of Feeding and Swallowing Services at Children's Hospital of Wisconsin – Milwaukee. She is the Clinical Professor in Division of Gastroenterology, Department of Pediatrics, Medical College of Wisconsin. She has 3 books in publication and numerous articles in peer reviewed journals. Dr. Arvedson is an internationally recognized expert in pediatric dysphagia. She was awarded Honors of ASHA in 2016 and is an ASHA Fellow.

### FINANCIAL

Receives a salary from Children's Hospital of Wisconsin; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference; Receives royalties from Plural Publishing Company, Inc; Receives royalties from Northern Speech Services; Receives royalties from Medbridge, Inc; Receives a speaking fee from Education Resources, Inc.

### NONFINANCIAL

Dr. Arvedson is a member of ASHA and SIG 13.

## DAN ATKINS, MD

Dr. Dan Atkins has been a practicing allergist for more than 30 years. He was the Chief of the Allergy and Immunology Section at Children's Hospital Colorado from 2014-2019. He is an Associate Professor in the Department of Pediatrics at the University of Colorado School of Medicine and Co-Director of the Gastrointestinal Eosinophilic Diseases Program, a multidisciplinary program at Children's Hospital Colorado designed for the optimal evaluation and treatment of children with gastrointestinal eosinophilic disorders. Dr. Atkins is a Fellow of the American Academy of Allergy, Asthma and Immunology (AAAAI) and the current chairperson of the Eosinophilic Gastrointestinal Diseases Committee of the AAAAI. His major areas of interest include adverse reactions to foods and eosinophilic diseases of the gut.

### FINANCIAL

Dr. Atkins is an Associate Professor in the Department of Pediatrics at the University of Colorado School of Medicine, where he receives a salary. Dr. Atkins is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference. Receives a consulting fee from Allakos.

### NONFINANCIAL

Fellow of the American Academy of Allergy, Asthma and Immunology (AAAAI); Chair of the Eosinophilic Gastrointestinal Diseases Committee of the AAAAI.

## JULIE BARKMEIER-KRAEMER, PHD, CCC-SLP

Julie Barkmeier-Kraemer is a Professor in the Division of Otolaryngology, Clinic Director for the Voice Disorders Center, and Adjunct Faculty to the Communication Sciences and Disorders Department at the University of Utah. She has 30 years of clinical and basic/clinical research experience with voice, breathing, and swallowing disorders. She has contributed toward the development of a pediatric feeding and swallowing screening.

### FINANCIAL

Professor in the Department of Surgery and Adjunct Professor in the Department of Communication Sciences & Disorders at the University of Utah where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Serves as a member of the Feeding Matters Pediatric Feeding Disorder Alliance Executive Council; ASHA member as well as SIGs 3, 13, and 18; Member of the Dysphagia Research Society; Member of USHA; Editor in Chief for AJSLP.

## GILSON CAPILOUTO

Gilson is a professor and clinical researcher in the University of Kentucky's Department of Rehabilitation Sciences and a fellow of the American-Speech-Language Association, Gilson Capilouto advises and teaches in the undergraduate and graduate Communication Sciences and Disorders programs as well as interdisciplinary Rehabilitation Sciences doctoral program and serves as the director of undergraduate research for the College of Health Sciences. With more than 35 years of experience as a practicing speech-language pathologist with specific emphasis in infant and pediatric language development, feeding, and swallowing, her current research focuses on early sucking behavior as a predictor of neurodevelopmental outcomes. Gilson is co-founder of NFANT Labs, LLC and co-inventor of technology used to study neonatal feeding.

### FINANCIAL

Dr. Capilouto has intellectual property rights and holds patent on equipment for NFANT labs LLC.

### NONFINANCIAL

Dr. Capilouto is a member of ASHA.

## JENNIFER CASTEIX

Jennifer Casteix is a clinical associate professor in the Department of Speech, Language, and Hearing Sciences and the speech-language faculty for the ArizonaLEND program at The University of Arizona. She has provided feeding and swallowing services to infants and children with a variety of disorders and difficulties in NICU, PICU, outpatient, and home settings in Southern Arizona for 30 years. Ms. Casteix led the interprofessional team that implemented a comprehensive cue-based feeding program at Diamond Children's Medical Center in Tucson. She has presented nationally and internationally on feeding and swallowing difficulties in children with neurodevelopmental disorders. Ms. Casteix currently trains graduate students in the Grunewald-Blitz Clinic for Communication Disorders in Children, and teaches a graduate level course on pediatric feeding and swallowing disorders at the UA. She is the current president of the Arizona Speech-Language-Hearing Association.

### FINANCIAL

Ms. Casteix receives a salary from University of Arizona.

### NONFINANCIAL

Ms. Casteix is the president of the Arizona Speech-Language-Hearing Association and a member of ASHA.

## ASHLEY COLLIER

Ashley has grown up in Asheville, NC. She has a BA in Exercise and Sport Science from UNC, a MS in Sports Administration from FSU and JD from Campbell University 2006. She practiced law from 2006-2012 and since then has stayed at home and worked for her children along with serving as the board chair for Family Support Network, Program Director of TOPSoccer, I Can Bike Camp and I Can Swim Camp and the Executive Director of Camp High Five. She is married to Forrest Collier and parents to Macie (11), Kenan and Forrest (9 year old twins we adopted from Haiti in 2013).

### FINANCIAL

Mrs. Collier does not have any relevant financial disclosures.

### NONFINANCIAL

Mrs. Collier does not have any relevant non financial disclosures.

## JOANNA COSBEY, PHD, OTR/L

Dr. Cosby is an occupational therapist with a PhD in Special Education. She has worked with children with disabilities in natural environments (e.g., homes, schools, and communities) for over 20 years. She has worked on several research projects examining the social participation and the mealtime behaviors of young children with disabilities. Joanna has been a faculty member in both Special Education and Occupational Therapy programs. She has specific expertise in the areas of behavior change, augmentative and alternative communication strategies, sensory processing, and parent/teacher coaching. She is currently working as an occupational therapist, a special education director, and a trainer/provider of professional development to support the participation and education of children with disabilities.

### FINANCIAL

Dr. Cosby is a faculty member at the University of New Mexico where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr Cosby has no relevant nonfinancial disclosures.

## PAMELA DODRILL, PHD, CCC-SLP

Dr. Pamela Dodrill has broad clinical and research interest in feeding and swallowing problems, nutrition, and growth in young children. Her experience includes the feeding and swallowing program at Boston Children's Hospital and 12 years at the Royal Children's Hospital in Brisbane, Australia. In addition to her numerous published works on pediatric feeding disorder (PFD), Dr. Dodrill regularly presents at national and international scientific conferences, and teaches courses and workshops on managing PFD for students and practicing health professionals. Dr. Dodrill is a regular participant in Feeding Matters' pediatric feeding consortiums and consensus meeting, popular International Pediatric Feeding Disorder Conference (IPFDC) and continuing education workshop presenter, PFD consensus paper author, Infant and Child Feeding Questionnaire (ICFQ) committee member, and PFD Dissemination Committee co-lead.

### FINANCIAL

Dr. Dodrill is a Clinical Specialist at Brigham and Women's Hospital where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Education chair of the Feeding Matters Pediatric Feeding Disorder Alliance.

## CAROL ELLIOT, BS, OTR/L

Carol is the owner of her private practice Pediatric Feeding Services, Inc. and co-owner of the Pediatric Feeding Institute, Inc. She was employed at Children's Hospital of Richmond @ VCU for 23 years, 19 of which she worked full time in the Children's Feeding Program. Carol began her career in the area of pediatric Occupational Therapy in 1987 after receiving her degree at Elizabethtown College, Elizabethtown, PA. Since 1998. Carol has devoted her clinical practice to developing and implementing treatment techniques for children with complex feeding disorders including the development of the TR-eat® Model with Elizabeth Clawson, PhD in 2009. She provides treatment for infants through teenagers with a wide array of diagnoses. Along with her fulltime clinical practice, she co-presents the workshop Mealtime Miserias: Management of Complex Feeding Issues along with other speaking engagements, has published multiple articles, and provides consultative services to other professionals and treatment centers in the area of pediatric feeding evaluation/treatment.

### FINANCIAL

Ms. Elliot receives a salary from Pediatric Feeding Institute.

### NONFINANCIAL

Ms. Elliot does not have any relevant non-financial disclosures.

## HAYLEY ESTREM, PHD, RN

Dr. Hayley Estrem is an Assistant Professor at the UNCW School of Nursing. Her primary research interests are to improve family-centered care for children with feeding disorder and/or developmental disabilities. Her work combines measure development, multi-method integration, and family-centered care for infants and children with special health care needs. Dr. Estrem is a founding member of the Feeding Flock, an interdisciplinary PFD research team that develops parent-report assessment tools.

### FINANCIAL

Assistant professor at the UNCW School of Nursing where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Member of the research team with Feeding Flock; Has a child with a pediatric feeding disorder; Member of the conference committee for the Feeding Matters 2020 International Pediatric Feeding Disorder Conference; Research chair of the Feeding Matters Pediatric Feeding Disorder Alliance.

## LOUISA FERRARA, PHD, CCC-SLP, BCS-S, CNT

Louisa Ferrara, PhD, CCC-SLP, BCS-S, CNT is a Pediatric Speech-Language Pathologist with over 10 years of clinical experience working with neonates, medically-fragile infants and children with a myriad of complex medical/developmental needs. Dr. Ferrara has worked in numerous pediatric settings, most recently as a Neonatal/Pediatric Specialist in Feeding and Swallowing Disorders at NYU-Winthrop Hospital, in New York. Dr. Ferrara developed the NICU Feeding Program in this Level III NICU, and continues to serve as a valuable research team member. Dr. Ferrara is an assistant professor at Molloy College on Long Island, NY, where she strives to shape the careers of future neonatal therapists in the field of speech/language pathology. Dr. Ferrara completed her Doctorate degree in Speech and Language Pathology in May 2018 from Adelphi University. She received her Board Certification in Swallowing and Swallowing Disorders in 2014 through ASHA. She has earned specification as a Certified Neonatal Therapist in 2018, through NANT of which she is also a member. Dr. Ferrara published research has focused on the swallowing mechanism in neonates under various conditions (respiratory devices, liquid modifications, feeding strategies, etc.), as well as the use of VFSS and FEES as diagnostic tools. Dr. Ferrara has published in high-standing, peer-reviewed journals. Dr. Ferrara lectures nationally, on various topics related to feeding readiness in preterm infants, dysphagia management, swallowing-respiratory coordination and early feeding milestone acquisition.

### FINANCIAL

Dr. Ferrara is an assistant professor at Molloy College where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Ferrara is a member of ASHA and the National Association of Neonatal Therapists.

## MARY BETH FEULING

Mary Beth Feuling, Advanced Practice Dietitian at Children’s Hospital of Wisconsin specializes in working with pediatric patients in the area of nutrition care in regards to feeding disorders, food allergy, and gastroenterology. She has a vast range of experience caring for patients in both the hospital and outpatient setting. She has a passion for training other Dietitians to help the advancement of appropriate nutrition care for pediatric patients across the country as well as working towards improving processes that improve care. She has published in peer reviewed journals on a range of topics including food allergy, feeding disorders and nutrition support. She authored the Food Allergy Chapter for both editions of the ASPEN Pediatric Core Curriculum and was an author for the important publication that is in the press; Pediatric Feeding Disorder guideline. Mary Beth has been instrumental in helping many families navigate the nutritional challenges of feeding disorders, food-allergic and/or food restricted children.

### FINANCIAL

Ms. Feuling receives a salary from Children’s Wisconsin.

### NONFINANCIAL

Ms. Feuling does not have any relevant non-financial disclosures.

## THERESA KING

I’m a mom of two little ones with a background in healthcare. Here to share our daughter’s story to hopefully help some someone else advocate for resources for their child.

### FINANCIAL

Mrs. King does not have any relevant financial disclosures.

### NONFINANCIAL

Mrs. King does not have any relevant non-financial disclosures.

## JULIANA HARRIS

Juliana Harris is a mother of two daughters. Her eldest who is 14 years old has Rett Syndrome, a rare neurological and developmental disorder and has been recently diagnosed with inflammatory bowel disease. Over the years, her daughter has received support from numerous healthcare professionals and services to help optimize nutrition and feeding concerns. Although the journey has not always been easy, Juliana’s family strives to create normalcy around mealtimes as much as possible which sometimes requires a little patience and creativity.

### FINANCIAL

Ms. Harris does not have any relevant financial disclosures.

### NONFINANCIAL

Ms. Harris does not have any relevant non-financial disclosures.

## HOLLY KNOTOWICZ, MS, CCC-SLP

Holly holds a Master of Science degree in Communication Sciences and Disorders from Nazareth College. She is a Speech Language Pathologist and a Feeding and Swallowing specialist at Children’s Hospital Colorado. Her areas of clinical interest include behavioral, oral motor and oral sensory feeding disorders and mealtime dynamics. She specializes in working with children who have eosinophilic gastrointestinal diseases, including eosinophilic esophagitis and working with children who have food allergies, FPIES and neurogenic disorders. She conducts individual, intensive and telehealth feeding therapy, in addition to supporting the Gastrointestinal Esophageal Diseases Program and the Pediatric Oral Feeding Clinic.

### FINANCIAL

Receives a salary from Picky Eaters Anonymous; receives a salary from Children’s Hospital Colorado; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Member of the conference committee for the Feeding Matters 2020 International Pediatric Feeding Disorder Conference.

## BETHANY C.F. KORTSHA, MA, OTR/L

Bethany CF Kortsha, MA, OTR/L received her Masters of Arts degree in Occupational Therapy from The College of Saint Catherine in St. Paul, Minnesota. She completed her Master’s thesis on Autism and feeding challenges using the SOS Approach to Feeding. Bethany has worked as a Pediatric Feeding Specialist and the Assistant Director of SOS Feeding Solutions at the STAR Institute for Sensory Processing Disorder with Dr. Lucy Jane Miller and as a member on a Multidisciplinary team in a day treatment clinic for children with Autism Spectrum Disorders, SPD, emotional/behavioral disorders, and feeding problems. Bethany is currently the Director of Clinical Development for Toomey & Associates, Inc. In addition to her specialty in Feeding, Bethany has completed the STAR Institute’s Intensive Mentorship Program and is a certified DIR Floortime Provider.

### FINANCIAL

Ms. Kortsha receives a speaking fee and receives contracted payment for teaching online courses and writing web content for Toomey and Associates; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Ms. Kortsha is a member of the American Occupational Therapy Association.

## JEN LAMBERT, M.ED.

A veteran in program delivery that promotes awareness, understanding, and collaborative care, Jen Lambert plans, implements, manages, and evaluates the organizations family support, professional support, and volunteer programs – most notably facilitating the International Pediatric Feeding Disorder Conference. Prior to joining Feeding Matters, Jen held leadership positions of increasing responsibility at Head Start –a program of the United States Department of Health and Human Services that provides comprehensive early childhood education, health, nutrition, and parent involvement services to low-income children and their families.

### FINANCIAL

Receives salary from Feeding Matters.

### NONFINANCIAL

Mrs. Lambert has no relevant financial nondisclosure.

## CHANTAL LESSARD, MHSC

Chantal Lessard is a Speech-Language Pathologist at the Children's Hospital of Eastern Ontario. She is a member of the inpatient rehabilitation team as well as the interprofessional feeding clinic. She is also the Clinical Coordinator and Professional Practice Leader for Audiology, Auditory-Verbal Therapy and the Cochlear Implant Program at CHEO. With over 23 years of experience, she has developed a special interest in pediatric feeding difficulties. She has published in *The Journal of Nutrition and Clinical Practice* and presented a contributed paper at the Speech and Audiology Canada 2014 conference on a study looking at the speech and language development of toddlers with a history of feeding difficulties.

### FINANCIAL

Receives a salary from the Children's Hospital of Eastern Ontario; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Ms. Lessard has no relevant nonfinancial disclosures.

## MEGHAN MARSAC, PHD

Dr. Meghan Marsac is a pediatric psychologist and associate professor at the University of Kentucky and Kentucky Children's Hospital. She is a leader in the field of pediatric medical trauma and has published over 50 academic articles and 7 chapters on this topic. She has published in leading medical journals such as *JAMA Pediatrics* and *Pediatrics* and leading health psychology journals such as the *Journal of Pediatric Psychology* and *Health Psychology*. Dr. Marsac has also given hundreds of talks on understanding and promoting adjustment to injury and illness in children and their families. She leads the Cellie Coping Kit for Children ([www.celliecopingkit.org](http://www.celliecopingkit.org)) Program (as a co-inventor) which has distributed over 2000 coping kits to families with children with medical conditions.

### FINANCIAL

Dr. Marsac is associate professor of Pediatrics at University of Kentucky where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Marsac is involved with the Cellie Coping Kit for Children at Children's Hospital of Philadelphia.

## MICHELLE MASTIN

Michelle is a licensed clinical psychologist and the program founder and director of the Children's of Alabama Intensive Feeding Program. She is a Clinical Assistant Professor at the University of Alabama in Birmingham, within the Department of Gastroenterology, Hepatology, and Nutrition. Dr. Mastin received her Bachelor's Degree from Emory University and pursued her doctoral education in Clinical Psychology at the University of Mississippi. Dr. Mastin completed her internship and post-doctoral fellowship at the Kennedy Krieger Institute at the Johns Hopkins University School of Medicine. Prior to joining Children's in 2012, Dr. Mastin was with the Helen DeVos Children's Hospital in Grand Rapids, Michigan. She served as both a Pediatric Psychologist and was the co-founder and director for their Intensive Feeding Program. When not working with children with feeding challenges and GI challenges, Dr. Mastin enjoys spending her time with her husband of 20 years, their three children, and sweet black lab. If you can't find her in the hospital, she is typically on a baseball field, basketball court, or soccer field spectating her children do what they love.

### FINANCIAL

Ms. Mastin receives a salary from Children's of Alabama within their Intensive Feeding Program.

### NONFINANCIAL

Ms. Mastin does not have relevant non-financial disclosures.

## CARA MCCOMISH, PHD

Cara McComish is an Associate Professor in the Division of Speech and Hearing Sciences at the University of North Carolina at Chapel Hill. She is a member of the Feeding Flock research team. Her research interests include pediatric dysphagia and feeding programs in infants and young children, as well as early identification of and interventions for autism spectrum disorder and other developmental disabilities.

### FINANCIAL

Dr. McComish is an Associate Professor and Coordinator of Master's Studies at UNC School of Medicine, where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Member of the Feeding Flock research team.

## DEIRDRE M. MULDOON, PHD, CCC-SLP, BCBA-D

Deirdre is a speech-language pathologist and board certified behavior analyst. She has worked with families of children with challenging behaviors in their homes, clinics, and school settings. Deirdre's research interest centered on understanding, acceptance, and implementation of evidence based practices (EBPs) in the areas of speech-language pathology and special education. Deirdre has published applied research in the area of behavioral feeding disorders and ASD. She is currently an assistant professor in SLP in Albany, NY.

### FINANCIAL

Dr. Muldoon an Assistant Professor at The College of Saint Rose, where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Member of the Feeding Matters Resources Committee.

## RICHARD J. NOEL, MD, PHD

Dr. Noel was born in Mexico City and grew up in San Antonio, TX. He attended the University of Texas Southwestern Medical School in Dallas, earning MD and PhD degrees, and enrolled in the pediatric residency program at Wake Forest University Medical Center in North Carolina. Upon completion, he began training in pediatric gastroenterology at Cincinnati Children's Hospital Medical Center where he was initially exposed to the structured care of medically-complex children with feeding disorders. Dr. Noel worked with the multidisciplinary feeding disorder clinic at the Children's Hospital of Wisconsin for 10 years, then moved to Duke University where he has been Chief of the Division of Pediatric Gastroenterology and Hepatology since 2014. He has spoken on the topics of pediatric feeding disorders and multidisciplinary care in national and international forums, including many previous presentations for Feeding Matters.

### FINANCIAL

Dr. Noel is the Chief of the Division of Pediatric Gastroenterology and Hepatology, at Duke University where he receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Noel has no relevant nonfinancial disclosures.

## CARRIE OWEN OT REG.(ON)

Carrie Owen is an accredited Occupational Therapist, program designer, facilitator, researcher, lecturer and author in the field of feeding and related developmental needs of infants, children and teens. Carrie is the owner of Sweet Pea Therapy helping families in the Ottawa area with children who have feeding challenges. In addition to her private practice, she is the coordinator, developer and core team member of the feeding clinics at the Children's Hospital of Eastern Ontario (CHEO). She is embraced by families across Canada for her expertise and nurturing spirit as she provides understanding, advice and professional guidance to families on a wide variety of feeding challenges, from picky eaters to children with complex medical issues. Carrie is also a lactation consultant. Carrie lectures at Canadian universities and presents professional workshops on feeding strategies and interventions. She has been an International keynote speaker at recognized Pediatric conferences. She is a published researcher in The Journal of Nutrition and Clinical Practice. Carrie has won two of CHEO's Gold Ribbon awards for Innovation and Stewardship.

### FINANCIAL

Ms. Owen is owner of Sweet Pea Therapy and employed by Children's Hospital of Eastern Ontario, where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Ms. Owen has no relevant nonfinancial disclosures.

## JINHEE PARK, PHD, RN

Jinhee Park is an assistant professor at the Boston College Connell School of Nursing and a member of the Feeding Flock research team. Dr. Park has a clinical background as a neonatal nurse. Her research interest is in the area of feeding problems in infants and young children with medical complexity. The focus of her research includes the discovery and testing of feeding interventions to support early feeding difficulties in preterm infants. Dr. Park uses a biobehavioral approach integrating physiological and behavioral data to study complex feeding problems.

### FINANCIAL

Dr. Park is an Assistant Professor at the Boston College Connell School of Nursing, where she receives a salary from Boston College; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference. Receives grant funding from NINR/NIH.

### NONFINANCIAL

Dr. Park is a member of the Feeding Flock and a member of the Research Advisory Panel for the Association of Women's Health Obstetric and Neonatal Nurses (AWHONN). She is also a co-developer of several parent-reported feeding assessment tools.

## CUYLER ROMEO

Cuyler is an Occupational Therapist and Pediatric Feeding Specialist. Her extensive leadership and clinical experience are instrumental in the execution and management of Feeding Matters' strategic initiatives. In partnership with the Senior Director of Programs and Strategic Initiatives, Jaclyn Pederson, Cuyler collaborates with constituents to identify, track, and assess innovative approaches to the PFD system of care, including the professional mentorship program and PFD Alliance's Education Pillar. Cuyler also facilitates strategic partnerships with select professional associations including the American Occupational Therapy Association (AOTA). Prior to joining Feeding Matters, Cuyler served as a founding partner of Mealtime Connections, LLC, and gained valuable insight on funding trends and industry implications as the director of clinical innovations at Therapy 2000. She is currently a treating clinician in Banner-University Medical Center's NICU and is the Feeding, Eating, and Swallowing Forum moderator for AOTA's Developmental Disabilities Special Interest Section (DD SIS).

### FINANCIAL

Mrs. Romeo receives a salary from Feeding Matters and Banner UMC.

### NONFINANCIAL

Mrs. Romeo is a member of the DD SIS board for AOTA.

## RACHEL ROSEN, MD, MPH

Rachel Rosen is an Associate Professor of Pediatrics at Harvard Medical School and the Director of the Aerodigestive Center at Boston Children's Hospital. She is a pediatric gastroenterologist who cares for children with motility disorders who may have associated respiratory symptoms and feeding difficulties. Her research interests include the impact of gastroesophageal reflux and esophageal dysmotility on the lungs.

### FINANCIAL

Is an attending physician at Boston Children's Hospital where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference; Receives a consulting fee from Takeda.

### NONFINANCIAL

Dr. Rosen has no relevant nonfinancial disclosures.

## ERIN ROSS, PHD, CCC-SLP

Erin Sundseth Ross, PhD, CCC-SLP holds a master's degree in Speech and Language Pathology and received a doctoral degree in Clinical Sciences – Health Services Research from the University of Colorado. Dr. Ross is a Clinical Instructor in the School of Medicine, Department of Pediatrics, at the University of Colorado, a faculty member of Rocky Mountain University of Health Professions, and works in the NICU within several HealthONE hospitals. For more than 29 years, she has specialized in the development of feeding skills in medically fragile children. Her research focuses on the etiology and treatment of feeding and growth problems in infants and children. She is also the president of Feeding FUNdamentals, LLC. Dr. Ross created and provides training in SOFFITM: Supporting Oral Feeding in Fragile Infants.

### FINANCIAL

Dr. Ross is a Clinical Instructor at the University of Colorado Denver, and faculty at the Rocky Mountain University of Health Professions, where she receives a salary; she is the president of Feeding FUNdamentals, where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Ross is a member of ASHA; Chair of the Advocacy Pillar for the Feeding Matters Pediatric Feeding Disorder Alliance.

## ALAN SILVERMAN, PHD

Alan Silverman is a Pediatric Psychologist and Professor of Pediatrics at the Medical College of Wisconsin. His primary clinical services are provided through the section of Gastroenterology and Nutrition working with families of children diagnosed with Pediatric Feeding Disorders. He leads the research efforts of the interdisciplinary feeding program at the Children's Hospital in Wisconsin, which includes studies of disease etiology, treatment efficacy, and technology-based interventions. He is an internationally known researcher and lecturer with numerous grants and over 30 original publications. He has contributed toward the development of a pediatric feeding and swallowing screening instrument in collaboration with Dr. Barkmeier-Kraemer and Feeding Matters in 2010. He has served on the Medical Professional Council of Feeding Matters from 2010-2019 and acted as co-chair of the Research Committee from 2010-2017.

### FINANCIAL

Associate Professor at Medical College of Wisconsin where he receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Serves as a member of the Pediatric Feeding Disorder Alliance with Feeding Matters.

## SUZANNE THOYRE, PHD, RN, FAAN

Suzanne Thoyre is a Professor at the School of Nursing at the University of North Carolina at Chapel Hill. Her research focuses on the development of early oral feeding of typically developing children, young children with Down syndrome, infants who have had surgery for complex cardiac conditions, and preterm infants. She co-developed a clinician-based assessment tool for early infant feeding skills (the Early Feeding Skills tool; EFS); this tool is used internationally to support the clinical care of infants who are vulnerable to developing chronic feeding disorders. Dr. Thoyre also co-founded the Feeding Flock, an interdisciplinary research team focused on management and prevention of feeding problems of infants and young children. Recently this team extended feeding assessment to the post-discharge period with the development of six parent-report assessment tools. These tools measure symptoms of problematic feeding, oral and motor feeding skills, parent perception of the impact feeding problems have on themselves and their families, and parent assessment of family management of feeding problems. A recently awarded R01 will use these tools to extend our understanding of the development of feeding problems of children with complex medical disorders from birth through 2 years of age.

### FINANCIAL

Professor at the University of North Carolina at Chapel Hill where she receives a salary; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Thoyre is co-founder of the Feeding Flock research team, and developer or co-developer of several feeding evaluation instruments.

## JUSTINE TURNER MBBS, FRACP, PHD

Dr. Justine Turner is a pediatric gastroenterologist and Associate Professor at the University of Alberta. Dr. Turner's is currently co-lead for the MNCY SCN HOIF II funded Provincial Pediatric Eating and Swallowing project. She has been medical lead for the Pediatric Home Nutrition Support Program at Stollery Children's Hospital, since 2010, and medical lead for the Glenrose Pediatric Feeding and Swallowing Team, since 2019. She is Associate Editor for the Journal of Pediatric Gastroenterology Hepatology and Nutrition (Nutrition Sector) and is on the Editorial Board for the Journal of Parenteral and Enteral Nutrition.

### FINANCIAL

Dr. Turner receives a salary from the University of Alberta.

### NONFINANCIAL

Dr. Turner does not have any relevant non-financial disclosures.

## MEGAN VAN HOORN, MS, RD, CNSC, CD

Megan has been a pediatric clinical dietitian specialist at Children’s Hospital of Wisconsin for the past 8 years, focusing on pediatric feeding disorders and G-tube dependence. She completed her Masters of Science degree in Dietetics at Mount Mary University in 2017 where her studies focused on the timing of solid food introduction in infants. Currently, Megan works in the multidisciplinary feeding clinic at Children’s Hospital of Wisconsin which offers treatment for toddlers to school-aged children with feeding disorders in conjunction with gastroenterologists, nurses, SLPs, and behavioral psychologists.

### FINANCIAL

Receives a salary from Children’s Hospital of Wisconsin; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Ms. Van Hoorn is a member of the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition Council for Pediatric Nutrition Professionals.

## CASSANDRA WALIA, CD, CNSC, MS, RD

Cassandra Walia is an outpatient clinical dietitian specialist at Children’s Hospital of Wisconsin, where she specializes in pediatric nutrition support and food allergies. She earned her masters of Science in Dietetics from Mount Mary University. Currently, Cassandra works in the pediatric GI and allergy clinics, specializing in patients with tube feedings and parenteral nutrition. Cassandra was the lead author on a special interest article published by the Academy of Nutrition & Dietetics titled “The Registered Dietitian Nutritionist’s Guide to Homemade Tube Feedings’.

### FINANCIAL

Receives a salary from Children’s Hospital of Wisconsin; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Ms. Walia is a member of the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition Council for Pediatric Nutrition Professionals.

## TARA WELKER, PHD

Tara Welker, PhD is a Clinical Psychologist in private practice in Phoenix, AZ. She earned her doctorate in Clinical Psychology from New York University in 2002, followed by a 2-year post-doctoral program in infant-toddler mental health. Dr. Welker provides therapy for children and adults using an integrated approach with an emphasis on contemporary psychodynamic therapy, attachment, trauma and creating resiliency. Dr. Welker provides treatment to individuals struggling with a wide range of mental health issues but has developed a sub-specialty in feeding disorders after working with the feeding team at Phoenix Children’s hospital and her own personal experience of having kids with feeding challenges.

### FINANCIAL

Receives a salary from her private practice; is receiving an honorarium from Feeding Matters for CE session at the 2020 International Pediatric Feeding Disorder Conference.

### NONFINANCIAL

Dr. Welker has no relevant nonfinancial disclosures.
