ABOUT FEEDING MATTERS

For kids with pediatric feeding disorder, every bite of food can be painful, scary, or impossible, potentially impeding nutrition, development, growth, and overall well-being. Founded in 2006, Feeding Matters is the first organization in the world devoted to accelerating identification, igniting research, promoting collaborative care, and encouraging awareness and understanding for pediatric feeding disorder.

In 2017, Feeding Matters reached more than 129,000 families and medical professionals from all 50 states and 112 countries.
